GROVE PARK EVERGREEN LAWN GRASS

In the South we have often found trouble in getting lasting lawn because no one grass will give satisfactory results. We spent years in studying, research and experiments to find the exact combination of grasses which would produce the soft lactic evergreen lawn in this climate, Grove Park Lawn Grass is the result of the studies and experiments, it is the only grass on the market made specially for this locality. Sow 1 lb. to 300 square ft. or 75 lbs. per acre, use 12 lbs. of Vigoro to 300 square feet. If soil is acid apply agriculture lime to lawn.
